Craving practical, field-tested solutions to support all students, especially those who struggle with communicating and writing their ideas? Together, we'll sample research-based learning strategies paired with technology to satisfy any appetite! We will dine on field-tested cases that were crafted with fresh data, scrumptious Common Core State Standards, a crisp 1:1 technology initiative, and served on a bed of practical, ready-made lessons for your learning pleasure. This hands-on session is all about sharing our teachers’ finest selections and empowering participants to explore lesson plans, student products, resources and strategies that showcase the delicious pairing of learning strategies and technology solutions.
