

Nicki Lindner

Assistant Researcher | The University of Kansas | Lawrence, KS

Nicki Lindner is an assistant researcher for the Enhanced Learning Maps project. She contributes to the mathematics portion of the learning map model by creating instructional resources for elementary math teachers based on best practices in mathematics education. Lindner worked for eight years as an elementary teacher in Kansas, Missouri, and Colorado. She taught Pre-K, third grade, fifth grade, and sixth grade. She earned a master's degree in elementary education from Regis University and a bachelor of arts degree from the University of Colorado.
